

HT01

DESCRIPTION

The HT01 consists of an e-unit laminated tag between two “see thru” PET plastic sheets.

This tag provides only limited protection against impact and environmental condition, and often it needs further RFID tag encapsulation assembly with lamination.

It is suitable for: security, access control, asset management and logistics.

LF

IP 65

RFID FEATURES

Frequency	125 KHz
Chip	
IC type	T5557
Memory dimensions	333 Bit
Reading distance	Up to 10 cm (dependent upon the reader)

PHISICAL FEATURES

Size (mm)	Diameter: from $\varnothing 15$ to $\varnothing 30$ Thickness: 0.05
Weight (g)	0.4
Material housing	PET

ENVIRONMENTAL FEATURES

Temperature	
Operating	-25°C ÷ +55°C
Storage	-25°C ÷ +75°C
