

# HT01

HF

IP 65

## DESCRIPTION

The HT01 consists of an e-unit laminated tag between two “see thru” PET plastic sheets.

This tag provides only limited protection against impact and environmental condition, and often it needs further RFID tag encapsulation assembly.

It is suitable for: security, acces control, asset management and logistics.

### RFID FEATURES

<b>Frequency</b>	13.56 MHz
<b>Chip</b>	
IC type	I.CODE SLI
Memory dimensions	256 Bytes
Standard protocol	ISO 15693
<b>Reading distance</b>	Up to 10 cm (dependent upon the reader)

### PHISICAL FEATURES

<b>Size (mm)</b>	Diameter: from $\varnothing 15$ to $\varnothing 30$   Thickness: 0.05
<b>Weight (g)</b>	0.4
<b>Material housing</b>	PET

### ENVIRONMENTAL FEATURES

<b>Temperature</b>	
Operating	-25°C ÷ +55°C
Storage	-25°C ÷ +75°C
