

## DESCRIPTION

PT05 is a fine product made with quality leather and it is hand sewn. It measures 38x48x4 mm, it is available with HF frequency and suited for applications, where durability is important.

Logo lasering or embossing as well as serialization with laser give this product a tasteful, noble and timeless appearance, positioned between plastic and high-end leather, this affordable leather product is popular for loyalty programs schemes.

It can be read up to 5 cm and it's available in: red, cool blue and a natural brown.

HF
