

CLOSE-TO-ME WW

DESCRIPTION

“Close-to-me WW” is the Italian solution to guarantee the “SOCIAL DISTANCING” whenever is worn by two or more people in the same room. The system is based on a watch-like wearable device with integrated BLE transmitter and receiver. Based on 2.4Ghz , is generating a “radio bubble” - low frequency non invasive - around the person. When the safe distance is not respected, an acoustic sound and vibration indicate that you are below one meter. It is rechargeable with USB and it has 2 buttons, 1 RGB led and a vibration motor.

IP 54

TECHNICAL FEATURES

Frequency	2.4GHz
Modulation mode	GFSK
Internal memory	64kB EEPROM
RF Power	8dBm [attenuation software settable]
Antenna	Integrated Linear Polarized Antenna
Integrated Sensor	Accelerometer (Option)
Battery	200mAh@3.7 LiPo Rechargeable battery

CONNECTIVITY

Compliant Standard	Bluetooth 5.0
--------------------	---------------

PHISICAL FEATURES

Dimensions (mm)	47 x 47 x 14 mm
User Interface	2 button, 1 RGB Led, Vibration Motor, Buzzer
Battery Charging	USB

*** Certification: CE according to ETSI EN 300 328 ***
